INVESTMENT OBJECTIVE & POLICY

The Fund aims to achieve long-term capital growth. The Fund aims to invest in equities falling mainly under the following categories: smaller companies which offer long-term growth; companies which offer recovery prospects; and companies in sectors which are perceived to be unduly depressed. There is no geographical restriction but in practice the Fund will be mainly invested in the UK. *

FUND COMMENTARY

There has been little new news on the political front in the month, but it emerged that the Prime Minister was looking at a ten-year plan to bring utility and transport companies back into public ownership. No decision has been made on whether additional development will be allowed on the Jackdaw and Rosebank oil & gas fields in the North Sea. With news coverage highlighting low levels of gas storage coupled with higher prices, the guidance seems to suggest that the Government will relax their stance. Any move to allow Rosebank and Jackdaw to be drilled would be positive for the industry. Andy Burnham has focused on the UK cost of living as his main priority and energy costs pushed up inflation from 2.6% to 2.9% in the month of July. UK interest rates were pegged at 3.75% and the Governor of the Bank of England indicated that he would be reluctant to see an increase. The UK Gilt market has reacted with higher yields at or around the financial crisis period of 2008. Much will depend upon the Government's spending plans, and the stock market could face a period of uncertainty as we run up to the time that the new Chancellor of the Exchequer John Healey produces his Autumn Statement on 28th October.

We purchased an interest in Motorpoint as a new holding in the Fund. The company focuses on selling cars under 6 years through omnichannel and operates from 22 sites in the UK. It is a company in which we have held shares in the past and realised a profit at a much higher level. Current trading is strong with first quarter sales on improved disciplined margins over the corresponding period. Additions were made to Capita Plc (software services), Microlise (vehicle tracking) and Premier Miton (asset management). To raise funds, we sold our interest in Advanced Medical Solutions where the agreed takeover of the company was voted through by shareholders and reduced several holdings. September promises to be an interesting month as we should learn more about Andy Burnham's plans as parliament returns from the summer recess. The hope is that there are no additional taxes on business, and the Government nurtures the benefits of encouraging growth in smaller companies which would be beneficial for shares held in the Fund

*We identified that the TM Stonehage Fleming Opportunities Fund factsheet incorrectly displayed the investment policy of the TM Stonehage Fleming AIM Fund during the period September 2025 to December 2025. This information has now been corrected. All other information contained in the factsheets remain accurate.

1. The OCF is the management fee plus additional fund expenses (excluding transaction costs) as a percentage of the assets of the fund. This gives an indication of annual expenses which may vary over time.

OUTCOME OF FAIR VALUE ASSESSMENTS (2025)

Our assessment confirms:

- The Fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The Fund provides fair value to customers.

AWARDS

RISK PROFILE

Class C, Class L, Class Y, Class B

The following risks are material:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

- The businesses and companies are subject to higher risk of failure and so the risk of insolvency is also higher for these type of shares. This could mean that you lose all or significantly large part of the investment is shares of companies which are insolvent.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

TM STONEHAGE FLEMING **OPPORTUNITIES FUND**

INVESTOR PROFILE

The Fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are seeking capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The Fund is unlikely to be appropriate for those who:

Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return

- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term

IMPORTANT INFORMATION

This is a marketing communication issued by Corient Investment Management Limited. Corient Investment Management Limited is the Investment Manager of the Fund, authorised and regulated in the UK by the Financial Conduct Authority (FRN. 194382). The distribution or possession of this document in jurisdictions outside the United Kingdom may be restricted by law or other regulatory requirements. For details of the Funds investment policy, please see the Investment Objective and Policy section of the Fund Prospectus Document.

All investments risk the loss of capital. No guarantee or representation is made that the fund will achieve its investment objective. The value of investments may go down as well as up. For products designed to return income, the distributions can also go down or up and you may not receive back the full value of your initial investment. Derivatives have not been used but are allowed if appropriate for efficient asset management. The Fund only invests in UK assets but is allowed to hold shares on overseas exchanges. This would occur in the event of a company delisting from the London stock market and would not be expected to be material. Hence, there would be limited foreign exchange risk. Past performance is not a guide to future returns. If the information is not displayed in your base currency, then the return may increase or decrease due to currency fluctuations.

Whilst every effort is made to ensure that the information provided to clients is accurate and up to date, some of the information may be rendered inaccurate by changes in applicable laws and regulations that may be subject to change in the future. The information in this document does not constitute legal, tax, or a personal recommendation. You must not, therefore, rely on the content of this document when making any investment decisions.

United Kingdom (UK): The Fund is approved by the Financial Conduct Authority (FCA) for promotion to retail and professional investors in the UK.
